securITy | Information Security Conference
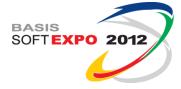

Place: Green View | Date: Saturday, 25th February, 2012 | Time: 14:30 - 19:00

OWASP   ISACA®   BASIS SOFT EXPO 2012

In today's knowledge-driven, dynamic and complex technology environment, information security has been so critical that it affects numerous individuals, organisations, industries and governments alike. The impact of information security on our evolving society has obliged securITy to become a vital hub of expertise for industry professionals – creating an exciting and vibrant meeting place. 'securITy' will bring together security experts, executives, technical thought leaders, developers, scientists and researchers from all over Bangladesh for in-depth discussions of cutting-edge Information Security, risk and control issues.

The conference will draw participation from major organizations across various verticals including government, information technology, services and consulting, telecommunications, finance, Banks, Internet, universities and research institutes. About 200 people are expected to attend the conference, which will be covered by major news media. Panel discussions will provide sufficient networking opportunities.

The session speakers will answer these fundamental questions to determine

- How secure we are, how much security is adequate
- What is at risk
- Legal aspects of IT and Information Security
- Payment card industry security
- Web application security
- IT Governance
- Computer forensics
- IT Risks and Control Framework
- Wireless security

Who should attend:

- Chief Financial Officers, Auditors, and Staff Responsible for IT Security Oversight and Compliance
- Chief Information Officers, Chief Information Security Officers, Chief Technology Officers, Deputies, Associates and Staff
- Application Developers
- Application Testers and Quality Assurance
- Application Project Management and Staff
- Security Managers and Staff
- Executives, Managers, and Staff Responsible for IT Security Governance
- Anyone interested in Information Security, Governance, Risk and Control issues
